

Adhesive Mosaic Mesh

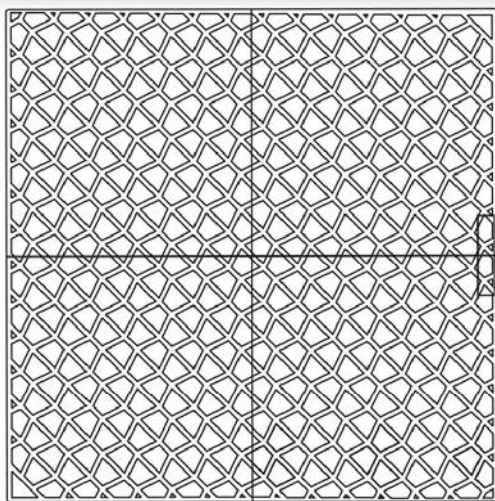

The solution to laying perfect mosaics

- DTA Adhesive Mosaic Meshes adhere to the back of mosaic sheets to add support and help keep grout joints spaced evenly.
- The Meshes are 1/16" thick to help compensate for the difference between mosaic tiles and the surrounding tiles.

300 x 300mm / 12" x 12" Adhesive Mosaic Mesh

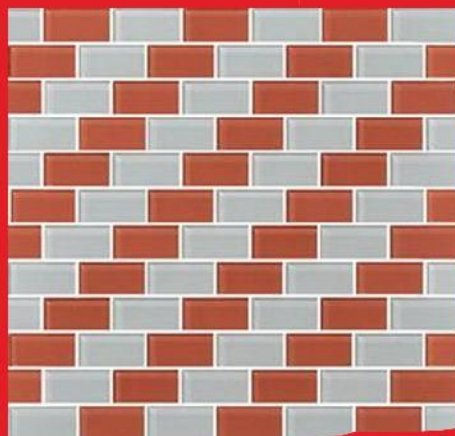

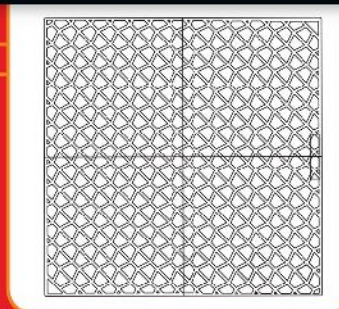

D.I.Y./TRADE

- ✓ Designed to fix behind mosaic tiles to increase the thickness so they sit level with other tiles
- ✓ Supports mosaics & prevents slipping
- ✓ Makes mosaic tiling quick & easy
- ✓ 5 sheets per pack
- ✓ Size - 300mm x 300mm x 1mm / 12" x 12" x 3/64"

Recommended Installation

1. Remove paper backing then apply mosaic mesh to back of mosaic tiles
2. Once mosaic mesh is firmly fixed to mosaic tiles apply adhesive to the wall and fix tiles
3. Once adhesive has dried complete by grouting mosaic tiles

The grid design allows adhesive to penetrate through to back of mosaic tiles providing a secure fix.

The sheet is easily cut for different designs.

Follow adhesive manufactures recommendations for adhesive coverage.
